ECS Configuration Change Request

CCR No. 96=1422	**Logged Date** 12/16/96	**Rev.** -	**Request Type** CCR

Priority Routine [X] Urgent [ ] Emergency [ ]	**Affected Release**	**Change Class** I I

Title Preliminary FOS Solaris 2.5.x Upgrades

Documents Affected	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or Tech Reference**

RTM Change [ ]   **Start New Baseline** [ ]

Problem
FOS needs to configure one SPARCstation 20/50 and one SPARC ULTRA with a developer's Solaris 2.5.x configuration to work through development and software migration issues.

Proposed Solution
FOS will install Solaris 2.5.x and the associated standard suite of tools/products on the FOS SPARCstation 20/50 "bugs" and the FOS SPARC ULTRA "speedy", in coordination with HTSC. This installation will be tuned on "bugs" and "speedy" until the proper set of patches has been identified to support FOS development. This final set of patches will form the FOS Solaris 2.5.x baseline configuration.
